### COMMENTS

#### ***Appellate Board***

Section 116 of the Act provides that the Appellate Board established under section 83 of the Trade Marks Act, 1999 shall be the Appellate Board for the purposes of the Act and the said Appellate Board shall exercise the jurisdiction, power and authority conferred on it by or under the Act. Section 83 of the Trade Marks Act, 1999 provides that the Central Government shall, by notification in the Official Gazette, establish an Appellate Board to be known as the Intellectual Property Appellate Board to exercise the jurisdiction, powers and authority conferred on it by or under that Act. The provisions for composition of the said Board are contained in section 84 of the said Act.

#### ***Assignee***

Assignment is the act of transferring to another all or part of one's property, interest or rights. It is a transfer or making over to another of the whole of any property, real or personal, in possession or in action, or of any estate or right therein. It includes transfers of all kinds of property, including negotiable instruments. In other words, it is the transfer by a party of all the rights to some kind of property, usually intangible property such as rights in a lease, mortgage, agreement of sale or a partnership. Tangible property is more often transferred by possession and by instruments conveying title such as a deed or a bill of sale. —*Black's Law Dictionary*. "Assignment" means the transfer of the claim, right or property to another. The Commissioner of *Gift Tax, Madras v. N.S. Getty Chettiar, AIR 1971 SC2410*.

---

<sup>1</sup> Substituted by Patents (Amdt.) Act, 2002, w.e.f. 20-5-2003 vide SO 561(E), dt. 20-5-2003.

An "assignee" is a person to whom an assignment is made; grantee. Assignee in fact is one to whom an assignment has been made in fact by the party having the right; and assignee in law is one in whom the law vests the right, as an executor or administrator.

Assignee means a person appointed by another to do any act or perform any business; also a person who takes some right, title or interest in things by an assignment from an assignor. They are divided into—(1) assignees by deed, as when a lessee of a term sells or assigns it to another, and (2) assignees by law, as when property devolves upon an executor without any specific appointment, the executor is assignee in law to the testator.—*Wharton's Law Lexicon*.

**Capable of industrial application**

An invention, in order to be patentable, must be capable of being made or used in some kind of industry. In this context, "industry" should be understood in its broadest sense as including any useful, practical activity as distinct from purely intellectual or aesthetic activity, and does not necessarily imply the use of a machine or the manufacture of an article. An "invention" within the meaning of the Act is an invention for a manner of new manufacture that is in some way associated with trade and commerce; meaning traffic in goods, i.e., exchange of commodities for money or other commodities—*Sri Gajalakshmi Ginning Factory Ltd. v. CIT (1952) 22ITR 502 (Mad)*. Trade or commerce is carried with profit motive. The expression "invention" has, therefore, been defined in the Patents Act, 1970 to mean manner of manufacture; machine; substance produced by manufacture. The invention relates to the skill (art), series of action (process) or the particular way (method) or the way (manner) of making a product or thing. It also relates to machine or apparatus by which a thing is made and also the product which is the result of act of making. All these are associated with "manufacture", which word:

- denotes either a thing made which is useful for its own sake and vendible as such; or
- means an engine or instrument to be employed either in the making of some previously known article or in some useful purpose or extending to new process to be carried on by known implements or elements acting upon known substances and ultimately producing some other known substance, but producing it in a cheaper or more expeditious manner, or of a better or more useful kind. [See *R. v. Wheeler (1819) 26 & Aid345*, quoted with approval in *BombayAgarwal Co. v. RamchandAIR 1953 Nag. 154*]. The focus is on "manufacture".

**Controller**

Under section 3(1) of the Trade Marks Act, 1999, the Central Government may, by Notification in the Official Gazette, appoint a person to be known as the Controller-General of Patents, Designs and Trade Marks, who shall be the Registrar of Trade Marks for the purposes of that Act. The said officer shall be the Controller for the purposes of the Patents Act also.

**Convention application**

Convention is an agreement or compact; especially, international agreement; e.g. Geneva Convention. It is an assembly or meeting of members or representatives of political, legislative, fraternal, etc. organisations.

Under section 135 of the Patents Act, where a person has made an application for a patent in respect of an invention in a convention country and that person or the legal representative or assignee of that person makes an application under the Act for a patent within 12 months after the date on which the basic application was made, the priority date of a claim of the complete specification being a claim based on matter disclosed in the basic application, is the date of the basic application.

**Convention country**

With regard to international arrangements in respect of patents, with a view to the fulfilment of a treaty, convention or arrangement with any country outside India which affords to applicants for patents in India or to citizens of India similar privileges as are granted to its own citizens in

respect of the grant of patents and protection of patent rights, the Central Government may declare such country to be a convention country for the purposes of the Act, vide section 133.

#### **District Court**

Section 2(4) of the Code of Civil Procedure, 1908 says that, "district" means the local limits of the jurisdiction of a Principal Civil Court of original jurisdiction (called a "District Court") and includes the local limits of the ordinary original civil jurisdiction of a High Court.

#### **Exclusive licence**

The expression "exclusive" is explicit and significant when the expression is explicit, it is conclusive, alike in what it says and in what it does not say. This is corroborated by the use of the expression "claim" for all purposes—*Charan Lal Sahu v. Union of India AIR 1990 SC 1480* (In the context of Bhopal Gas Leak Disaster (Processing of Claims) Act, 1985).

Exclusive licence is the exclusive right granted by patent holder to licensee to use, manufacture, and sell patented article. It is the permission to do a thing and contract not to give leave to any one else to do the same thing—*Overman Cushion Tire Co. v. Goodyear Tire and Rubber Co. C.C.A. N. Y. 59 F. 2d 998, 999*. It is a licence which binds the licensor not to enlarge thereafter the scope of other licences already granted, or increase the number of licences, is an exclusive licence—*Mechanical Ice Tray Corporation v. General Motors Corporation, C.C.A.N. Y. 144 F. 2d 720, 275*.

An "exclusive licensee" is one granted exclusive right and licence to use, manufacture, and sell patented article; one having exclusive right to use patented method and apparatus in designated territory.—*De/tel v. Chisholm, C.C.A.N.Y. 42 F. 2d 172, 173; Paul E. Hawkinson Co. v. Carnell, C.C.A. Pa. 119 F. 2d 396, 398*

#### **Food**

Food is a nutritive material absorbed or taken into the body of an organism which serves for purposes of growth, work or repair and for the maintenance of the vital processes.—*Webster's International Dictionary*.

Under section 2(v) of the Prevention of Food Adulteration Act, 1954, "Food" means any article used as food or drink for human consumption other than drugs and water and includes—

- (a) any article which ordinarily enters into, or is used in the composition or preparation of human food, and
- (b) any flavouring matter or condiments.

Within the meaning of the Prevention of Food Adulteration Rules, 1955, "food" means the composite preparations which normally go to constitute a meal.—*Collector of Central Excise v. Parle Exports (Pvt.) Ltd. AIR 1989 SC 644*

The expression 'food' has generally been understood to mean nutritive material absorbed or taken into the body of an organism which serves for purposes of growth, work or repair and for the maintenance of the vital process. What human beings consume is styled as food and what animals consume is described as animal feed. This distinction has to be borne in mind. Expression 'food-stuffs' is made of two expressions, 'food' plus 'stuff'. In other words, the stuff which is used as food would be foodstuff. Therefore, foodstuff is that which is taken into the system to maintain life and growth and to supply waste of tissue. If the raw foodstuff with a view to making it consumable by human beings undergoes a change of its conditions by the process of cooking, the derivative is none the less foodstuff.—*Welcome Hotel v. State of Andhra Pradesh, AIR 1983 SC 1015*:

Food means an article which normally a man eats or drinks to nourish his body and also an article which normally is not considered food but which normally enters into or is used in the composition or preparation of human food.—*Khedar Lal v. State of U.P. 1981 FAJ 192 (All)*

#### **Government undertaking**

Undertaking means business, project or works undertaken; something undertaken; a prom-

ise, a pledge. Under section 2(v) of the Monopolies and Restrictive Trade Practices Act, 1969, "undertaking" means an undertaking which is engaged in the production, supply, distribution or control of goods of any description or the provision of service of any kind.

Undertaking means the entire organization. A company whether it has a plant or whether it has an organization is considered as one whole unit, and the entire business of the going concern is embraced within the word 'undertaking'.—*Rustom Cavasjee Cooper v Union of India AIR 1970 SC 564: (1970) 1 SCJ 564: (1970)2 SCA 37.*

The term "undertaking" must be defined as any business or any work or project resulting in material goods or material services and which one engages in or attempts as an enterprise analogous to business or trade.—*Secretary, Madras Gymkhana Club Employees' Union v. Management of the Gymkhana Club, AIR 1968 SC 554.*

The word "undertaking" as used in Section 25-FFF of the Industrial Disputes Act used its ordinary sense, connoting thereby any work, enterprise, project or business undertaking. It is not intended to cover the entire industry or business of the employer.—*Workmen of the Straw Board Manufacturing Co. Ltd. v. Straw Board Manufacturing Co. Ltd., AIR 1974 SC 1132.*

According to its dictionary meaning as given by Webster, "undertaking" means anything undertaken; any business, work or project which one engages in or attempts; an enterprise.—*The Workmen of Indian Standards Institution v. The Management of Indian Standards Institution, AIR 1976 SC 145.*

#### **Invention**

Invention is the act or operation of finding out something new; the process of contriving and producing something not previously known or existing, by the exercise of independent investigation and experiment. Also the article or contrivance or composition so invented—*Smith v. Nichols, 88 U.S. (21 Wall.) 112, 22 LEd. 566; Hollister v. Mfg. Co., 113 U.S. 59, 5 S.Ct. 717, 28 LEd. 901.*

Invention is a concept; a thing involved in the mind; it is not a revelation of something which exists and was unknown, but is creation of something which did not exist before, possessing elements of novelty and utility in kind and measure different from and greater than what the art might expect from skilled workers—*Pursche v. Atlas Scraper & Engineering Co. C.A. Cal., 300 F.2d467, 472.* The finding out—The contriving, the creating of something which did not exist, and was not known before, and which can be made useful and advantageous in the pursuits of life, or which can add to the enjoyment of mankind. Not every improvement is invention; but to entitle a thing to protection it must be the product of some exercise of the inventive faculties and it must involve something more than what is obvious to persons skilled in the art to which it relates. Mere adaptation of known process to clearly analogous use is not invention.—*Firestone Tire and Rubber Co. v. U.S. Rubber Co., C.C.A. Ohio, 79 F.2d 948, 952, 953.*

Inventive skill has been defined as that intuitive faculty of the mind put forth in the search for new results, or new methods, creating what had not before existed, or bringing to light what lay hidden from vision; it differs from a suggestion of that common experience which arose spontaneously and by a necessity of human reasoning in the minds of those who had become acquainted with the circumstances with which they had to deal.—*Hollister v. Mfg. Co., 113 U.S. 59, 5 S.Ct. 717, 28 L.Ed. 901.* Invention, in the nature of improvements, is the double mental act of discerning, in existing machines, processes or articles, some deficiency, and pointing out the means of overcoming it.

Under section 2(8) of the Patents and Designs Act, 1911, "invention" means any manner of new manufacture and includes an improvement and an allied invention. Unlike the Patents Act, 1970, the 1911 Act does not specify the requirement of being useful in the definition of "invention". But courts have always taken the view that a patentable invention, apart from being a new manufacture, must also be useful. The foundation for this judicial interpretation is to be found in the fact that section 26(1)(f) of the 1911 Act recognises lack of utility as one of the grounds on

which a patent can be revoked.—*Bishwanath Prasad Radhey Shyam v. Hindustan Metal Industries AIR 1982 SC 1444.*

#### **Legal representative**

The term "legal representative" in its broadest sense means one who stands in place of, and represents the interests, of another. He is a person who oversees the legal affairs of another.

A "legal representative" ordinarily means a person who in law represents the estate of a deceased person or a person on whom the estate devolves on the death of an individual.—*Gujarat State Road Transport Corporation v. Ramanbhai Prabhat Bhai, AIR 1987 SC 1690*: "Legal representatives" include heirs as well as persons who represent the state even without title either as executors or administrators in possession of the estate of the deceased.—*Custodian of Branches of BANCO National Ultramarino v. Nalini Bai Naique, AIR 1989 SC 1589*:

Legal representative is a person who in law represents the estate of a deceased person, and includes any person who intermeddles with the estate of the deceased and where a party sues or is sued in a representative character, the person on whom the estate devolves on the death of the party so suing or sued.—*Civil Procedure Code 1908, s. 2(11); Arbitration Act 1940, s. 2(d); Gift-Tax Act 1958, s. 2(xvi) (b).*

The term conceives of two distinct categories. Firstly, the heirs or persons, who in law represent the estate of the deceased person. However, at par with them and in a class by itself is any person who intermeddles with the estate of the deceased. Such a person is equally a legal representative.—*Sudama Devi v. Jogendra Choudhury AIR 1987 Pat 239. Medicine or drug*

Drug includes all medicines for internal or external use of human beings or animals and all substances intended to be used for or in the diagnosis, treatment, mitigation or prevention of disease in human beings or animals.—*Sk. Amir v. State of Maharashtra AIR 1974 SC 469*

Under section 3(b) of the Drugs and Cosmetics Act, 1940, "drug" includes—

- (i) all medicines for internal or external use of human beings or animals and all substances intended to be used for or in the diagnosis, treatment, mitigation or prevention of disease in human beings or animals; and
- (ii) such substances (other than food) intended to affect the structure or any function of the human body or intended to be used for the destruction of vermins or insects which cause disease in human beings or animals, as may be specified from time to time by the Central Government by notification in the Official Gazette.

'Drug' includes—

- (i) all medicines for internal or external use of human beings or animals and all substances intended to be used for or in the treatment, mitigation or prevention of disease in human beings or animals other than medicines and substances exclusively used or prepared for use in accordance with the Ayurvedic or Unani systems of medicine; and
- (ii) such substance (other than food) intended to affect the structure or any function of the human body or intended to be used for the destruction of vermins or insects which cause disease in human beings or animals, as may be specified from time to time by the Central Government by notification in the Official Gazette. Drugs Act 1940, s. 3(b).

'Drug' includes—

- (i) a medicine for the internal or external use of human beings or animals;
- (ii) any substance intended to be used for or in the diagnosis, cure, mitigation, treatment or prevention of disease in human beings or animals;
- (iii) any article, other than food, intended to affect or influence in any way the structure or any organic function of the body of human beings or animals; (iv) any article intended for use as a component of any medicine, substance or article,

referred to in sub-clauses (i), (ii) and (iii). Drugs and Magic Remedies (Objectional Advertisements) Act, 1954, s. 2(b).

'Drug' means any drug as defined in clause (b) of section 3 of the Drugs Act, 1940 (XXIII of 1940), in respect of which a declaration has been made under s. 3. Drugs (Control) Act 1950.

### **Patent**

Patent is a grant or right to exclude others from making, using or selling one's invention and includes right to license others to make, use or sell it.

It is an official document conferring a right or privilege, letters patent; writing securing to an inventor for a term of years the exclusive right to make, use and sell his invention; the monopoly or right so granted.—*Webster's Ninth New Collegiate Dictionary*.

The effect of the grant of patent is *quid pro quo*, *quid's* the knowledge disclosed to the public and *quo* is the monopoly granted for the term of the patent. Section 12, Patents and Designs Act sets out that a Patent once granted confers upon the patentee the exclusive privilege of making, selling and using the invention throughout India and of authorising others so to do. This is *quo*. The *quid* is compliance with the various provisions resulting in the grant of patent.—*Raj Parkash v Mangat Ram Choudhary AIR 1978 Del 1*:

### **Patentee**

"Patentee" is he to whom a patent has been granted. The term is usually applied to one who has obtained letters patent for a new invention.

Patentee includes assignee of patent whose name is entered into the register of patents.—*Luxmi Dutta v. Nankaus AIR 1964 All 27*

### **Person**

In general usage, a human being (i.e. natural person), though by statute term may include labor organizations, partnerships, associations, corporations, legal representatives, trustees, trustees in bankruptcy, or receivers.

'Person' shall include any company or association or body of individuals, whether incorporated or not.—*General Clauses Act 1897, s. 3(42); Indian Penal Code 1860, s. 11*. The definition of the term in the General Clauses Act is not exhaustive. It is hardly a definition. It only indicates the intention of legislature to treat artificial persons as persons.—*Jabbar v State of UP. AIR 1966 All 590*.

Section 11, I.P.C. defining a person includes within its ambit a company or association or body of persons whether incorporated or not. It may seem prima facie that a corporate body or a body of unincorporated persons is punishable as an ordinary individual. But, the clause "unless there is anything repugnant to the subject or context" must always be understood to exist in the context of the definition given in Penal Code. So a corporate body or a company shall not be indictable for offences which can be committed only by a human individual (e.g., rape, bigamy etc.) or for offences which must be punished by imprisonment (e.g. cheating).—*State of Maharashtra v Syndicate Bank AIR 1964 Bom 95: (1964) 2 Cr U 276*.

In general, a corporation is in the same position in relation to criminal liability as a natural person and may be convicted of common law and statutory offences including those requiring *mens rea*. There are, however, crimes which a corporation is incapable of committing or of which a corporation cannot be found guilty as principal; nor can a corporation be convicted of a crime for which death or imprisonment are the only punishments.

Criminal liability of a corporation arises where an offence is committed in the course of corporation's business by a person in control of its affairs to such a degree that it may fairly be said to think and act through him so that his actions and intent are the actions and intent of the corporation.—*Halsbury's Laws of England, 4th Ed. Vol. 11, para 34, p. 30*.

Under section 2(31) of the Income Tax Act, 1961 "person" includes—

- (i) an individual,

- (ii) a Hindu undivided family,
  - (iii) a company,
  - (iv) a firm,
  - (v) an association of persons or a body of individuals, whether incorporated or not,
  - (vi) a local authority, and
  - (vii) every artificial juridical person, not falling within any of the preceding sub-clauses.
- Income-tax Act 1961, s. 2(31).*

In Order 30, Rule 10, Code of Civil Procedure 1908, the word 'person' does not include a company, because such a construction will be repugnant to the context.—*Modi Vanaspati v Khaitan Jute Mills AIR 1969 Cat 496.*

The General Clauses Act, 1897 defines that "person" shall include any company, or association or body of individuals whether incorporated or not". The word "person" in section 4 of the Indian Partnership Act which has replaced section 239 of the Indian Contract Act contemplates only natural or artificial, that is, legal persons and therefore a firm, is not a person and as such is not entitled to enter into Partnership with another firm or Hindu undivided family or individual.—*Dulichand Laxminarayan v. Commissioner of Income Tax, Nagpur, AIR 1956SC 354:*

(5) Where, under the foregoing provisions of this section, any claim of a complete specification would, but for the provisions of that sub-section, have two or more priority dates, the priority date of that claim shall be the earlier or earliest of those dates.

(6) In any case to which sub-sections (2), (3), H(3A)], (4) and (5) do not apply, the priority date of a claim shall, subject to the provisions of section 137, be the date of filing of the complete specification.

(7) The reference to the date of the filing of the application or of the complete specification in this section shall, in cases where there has been a post-dating under section 9 or section 17 or, as the case may be, an ante-dating under section 16, be a reference to the date as so post-dated or ante-dated.

(8) A claim in a complete specification of a patent shall not be invalid by reason only of

- (a) the publication or use of the invention so far as claimed in that claim on or after the priority date of such claim; or
- (b) the grant of another patent which claims the invention, so far as claimed in the first mentioned claim, in a claim of the same or a later priority date.

- (b) by any other person with the consent of the patentee or applicant for the patent or any person from whom he derives title, if the working was effected for the purpose of reasonable trial only and if it was reasonably necessary, having regard to the nature of the invention, that the working for that purpose should be effected in public.

**33. Anticipation by use and publication after provisional specification**

(1) Where a complete specification is filed or proceeded with in pursuance of an application which was accompanied by a provisional specification or where a complete specification filed along with an application is treated by virtue of a direction under sub-section (3) of section 9 as a provisional specification, then, notwithstanding anything contained in this Act, the Controller shall not refuse to grant the patent, and the patent shall not be revoked or invalidated, by reason only that any matter described in the provisional specification or in the specification treated as aforesaid as a provisional specification was used in India or published in India or elsewhere at any time after the date of the filing of that specification.

### COMMENTS

To be entitled to the grant of an ad interim injunction, the plaintiff has to show existence of a prima facie case, balance of convenience in his favour, and irreparable injury. Sec. 107 of the Act clearly provides that in any suit for injunction, every ground on which it may be revoked shall be available as a ground of defence.—*Franz Zaver Huemer v. New Yesh Engineers 1996 PTC (16) (Del) 164*

To satisfy the requirement of being publicly known as used in clauses (e) and (f) of s. 64(1), it is not necessary that it should be widely used to the knowledge of the consumer public. It is sufficient if it is known to the persons who are engaged in the pursuit of the knowledge of the patented product or process either as men of science or men of commerce or consumers.—*Monsanto Company v. Coramandal Indag Products (P) Ltd. AIR 1986 SC 712*

There is a distinction maintained as between the defence raised to a suit for infringement of a patent (vide s. 107) on the one hand and the revocation sought of a patent on the other (vide s. 64). The grounds may be the same, but still there is no inconsistency on account of the suit being defended as liable to dismissal in a particular case and a case where the defendant seeks also that the patent asserted by the plaintiff be revoked. It is only when there is a counterclaim seeking revocation of the patent that the jurisdiction of the District Court is ousted. The proviso to s. 104 being in the nature of an exception to the general rule, it has to be strictly construed. There is no express claim on the part of the defendant for revocation whereof infringement is alleged by the plaintiff. That the defendant pleads that the patent set up by the plaintiff is invalid amounts only to the defendant raising a ground for the relief sought by the plaintiff being declined; it does not follow necessarily that the defendant also seeks by way of a counterclaim that the patent be revoked. The defendant has not asserted in the pleadings anywhere that they are the patentee or that they are entitled to be registered as such. The grounds raised are cumulatively and also individually by way of defence to the plaintiff's action.—*Fabcon Corporation v. Industrial Engineering Corporation AIR 1987 All 338*

In *Ram Narain Kher v. Ambassador Industries PTC (Suppl.) (1) 180 (Del)*, the defendant pleaded that the invention and the advantages claimed by the plaintiff had not been adequately described in the patent and adequately claimed in the claim to bring it within the ambit of the term "invention" within the meaning of the Act. The High Court held that the defendants having specifically raised the ground that claims made by the plaintiff in the patent were vague and did not describe the invention clearly and properly, are competent to claim revocation of the patent on that ground in the terms of section 64(1) of the Act.

- (a) "patented article" includes any article made by a patented process; and
- (b) "patentee" includes an exclusive licensee.

4 Substituted, *ibid*.

**83. General principles applicable to working of patented inventions**

Without prejudice to the other provisions contained in this Act, in exercising the powers conferred by this Chapter, regard shall be had to the following general considerations, namely,—

- (a) that patents are granted to encourage inventions and to secure that the inventions are worked in India on a commercial scale and to the fullest extent that is reasonably practicable without undue delay;
- (b) that they are not granted merely to enable patentees to enjoy a monopoly for the importation of the patented article;
- (c) that the protection and enforcement of patent rights contribute to the promotion of technological innovation and to the transfer and dissemination of technology, to the mutual advantage of producers and users of technological knowledge and in a manner conducive to social and economic welfare, and to a balance of rights and obligations;
- (d) that patents granted do not impede protection of public health and nutrition and should act as instrument to promote public interest specially in sectors of vital importance for socio-economic and technological development of India;
- (e) that patents granted do not in any way prohibit Central Government in taking measures to protect public health;
- (f) that the patent right is not abused by the patentee or person deriving title or interest on patent from the patentee, and the patentee or a person deriving title or interest on patent from the patentee does not resort to practices which unreasonably restrain trade or adversely affect the international transfer of technology; and
- (g) that patents are granted to make the benefit of the patented invention available at reasonably affordable prices to the public.

**84. Compulsory licences**

(1) At any time after the expiration of three years from the date of the <sup>1</sup>[grant] of a patent, any person interested may make an application to the Controller for grant of compulsory licence on patent on any of the following grounds, namely:—

- (a) that the reasonable requirements of the public with respect to the patented invention have not been satisfied, or
- (b) that the patented invention is not available to the public at a reasonably affordable price, or
- (c) that the patented invention is not worked in the territory of India.

(2) An application under this section may be made by any person notwithstanding that he is already the holder of a licence under the patent and no person shall be estopped from alleging that the reasonable requirements of the public with respect to the patented invention are not satisfied or that the patented invention is not worked in the territory of India or that the patented invention is not available to the public at a reasonably affordable price by reason of any admission made by him, whether in such a licence or otherwise or by reason of his having accepted such a licence.

(3) Every application under sub-section (1) shall contain a statement setting out the nature of the applicant's interest together with such particulars as may be prescribed and the facts upon which the application is based.

(4) The Controller, if satisfied that the reasonable requirements of the public with respect to the patented invention have not been satisfied or that the patented invention is not worked in the territory of India or that the patented invention is not available to the public at a reasonably price, may grant a licence upon such terms as he may deem fit.

(5) Where the Controller directs the patentee to grant a licence he may, as incidental thereto, exercise the powers set out in section 88.

(6) In considering the application filed under this section, the Controller shall take into account,—

- (i) the nature of the invention, the time which has elapsed since the sealing of the patent and the measures already taken by the patentee or any licensee to make full use of the invention;
- (ii) the ability of the applicant to work the invention to the public advantage;
- (iii) the capacity of the applicant to undertake the risk in providing capital and working the invention, if the application were granted;
- (iv) as to whether the applicant has made efforts to obtain a licence from the patentee on reasonable terms and conditions and such efforts have not been successful within a reasonable period as the Controller may deem fit: PROVIDED that this clause shall not be applicable in case of national emergency or other circumstances of extreme urgency or in case of public non-commercial use or on establishment of a ground of anti-competitive practices adopted by the patentee,

but shall not be required to take into account matters subsequent to the making of the application.

<sup>1</sup>[*Explanation* : For the purposes of clause (iv), "reasonable period" shall be construed as a period not ordinarily exceeding a period of six months.]

(7) For the purposes of this Chapter, the reasonable requirements of the public shall be deemed not to have been satisfied—

- (a) if, by reason of the refusal of the patentee to grant a licence or licences on reasonable terms,—
  - (i) an existing trade or industry or the development thereof or the establishment of any new trade or industry in India or the trade or industry in India or the trade or industry of any person or class of persons trading or manufacturing in India is prejudiced; or
  - (ii) the demand for the patented article has not been met to an adequate extent or on reasonable terms; or
  - (iii) a market for export of the patented article manufactured in India is not being supplied or developed; or
  - (iv) the establishment or development of commercial activities in India is prejudiced; or
- (b) if, by reason of conditions imposed by the patentee upon the grant of licences under the patent or upon the purchase, hire or use of the patented article or process, the manufacture, use or sale of materials not protected by the patent, or the establishment or development of any trade or industry in India, is prejudiced; or

- (c) if the patentee imposes a condition upon the grant of licences under the patent to provide exclusive grant back, prevention to challenges to the validity of patent or coercive package licensing; or
- (d) if the patented invention is not being worked in the territory of India on a commercial scale to an adequate extent or is not being so worked to the fullest extent that is reasonably practicable; or
- (e) **if the working of the patented invention in the territory of India on a commercial scale is being prevented or hindered by the importation from abroad of the patented article by—**
  - (i) **the patentee or persons claiming under him; or**
  - (ii) **persons directly or indirectly purchasing from him; or**
  - (iii) **other persons against whom the patentee is not taking or has not taken proceedings for infringement.**

#### **85. Revocation of patents by the Controller for non-working**

(1) Where, in respect of a patent, a compulsory licence has been granted, the Central Government or any person interested may, after the expiration of two years from the date of the order granting the first compulsory licence, apply to the Controller for an order revoking the patent on the ground that the patented invention has not been worked in the territory of India or that reasonable requirements of the public with respect to the patented invention have not been satisfied or that the patented invention is not available to the public at a reasonably affordable price.

(2) Every application under sub-section (1) shall contain such particulars as may be prescribed, the facts upon which the application is based, and, in the case of an application other than by the Central Government, shall also set out the nature of the applicant's interest.

**(3) The Controller, if satisfied that the reasonable requirements of the public with respect to the patented invention have not been satisfied or that patented invention has not been worked in the territory of India or that the patented invention is not available to the public at a reasonably affordable price, may make an order revoking the patent.**

(4) Every application under sub-section (1) shall ordinarily be decided within one year of its being presented to the Controller.

#### **86. Power of Controller to adjourn applications for compulsory licences, etc., in certain cases**

(1) Where an application under section 84 or section 85, as the case may be, is made on the grounds that the patented invention has not been worked in the territory of India or on the ground mentioned in clause (d) of sub-section (7) of section 84 and the Controller is satisfied that the time which has elapsed since the sealing of the patent has for any reason been insufficient to enable the invention to be worked on a commercial scale to an adequate extent or to enable the invention to be so worked to the fullest extent that is reasonably practicable, he may, by order, adjourn the further hearing of the application for such period not exceeding twelve months in the aggregate as appears to him to be sufficient for the invention to be so worked:

PROVIDED that in any case where the patentee establishes that the reason why a patented invention could not be worked as aforesaid before the date of the application was due to any State or Central Act or any rule or regulation made thereunder or any order of the Government imposed otherwise than by way of a condition for the working of the invention in the territory of India or for the disposal of the patented articles or of the articles made by the process or by the use of the patented plant, machinery, or apparatus, then, the period of adjournment ordered under this sub-section shall be

reckoned from the date on which the period during which the working of the invention was prevented by such Act, rule or regulation or order of Government as computed from the date of the application, expires.

(2) No adjournment under sub-section (1) shall be ordered unless the Controller is satisfied that the patentee has taken with promptitude adequate or reasonable steps to start the working of the invention in the territory of India on a commercial scale and to an adequate extent.

#### **87. Procedure for dealing with applications under sections 84 and 85**

(1) Where the Controller is satisfied, upon consideration of an application under section 84, or section 85, that a *prima facie* case has been made out for the making of an order, he shall direct the applicant to serve copies of the application upon the patentee and any other person appearing from the register to be interested in the patent in respect of which the application is made, and <sup>1</sup>[shall publish the application in the Official journal].

(2) The patentee or any other person desiring to oppose the application may, within such time as may be prescribed or within such further time as the Controller may on application (made either before or after the expiration of the prescribed time) allow, give to the Controller notice of opposition.

(3) Any such notice of opposition shall contain a statement setting out the grounds on which the application is opposed.

(4) Where any such notice of opposition is duly given, the Controller shall notify the applicant, and shall give to the applicant and the opponent an opportunity to be heard before deciding the case.

#### **88. Powers of Controller in granting compulsory licences**

(1) Where the Controller is satisfied on an application made under section 84 that the manufacture, use or sale of materials not protected by the patent is prejudiced by reason of conditions imposed by the patentee upon the grant of licences under the patent, or upon the purchase, hire or use of the patented article or process, he may, subject to the provisions of that section, order the grant of licences under the patent to such customers of the applicant as he thinks fit as well as to the applicant.

(2) Where an application under section 84 is made by a person being the holder of a licence under the patent, the Controller may, if he makes an order for the grant of a licence to the applicant, order the existing licence to be cancelled, or may, if he thinks fit, instead of making an order for the grant of a licence to the applicant, order the existing licence to be amended.

(3) Where two or more patents are held by the same patentee and an applicant for a compulsory licence establishes that the reasonable requirements of the public have not been satisfied with respect to some only of the said patents, then, if the Controller is satisfied that the applicant cannot efficiently or satisfactorily work the licence granted to him under those patents without infringing the other patents held by the patentee and if those patents involve important technical advancement or considerable economic significance in relation to the other patents, he may, by order, direct the grant of a licence in respect of the other patents also to enable the licensee to work the patent or patents in regard to which a licence is granted under section 84.

**1** Substituted for "shall advertise the application in the Official Gazette" by the Patents (Amdt.) Act, 2005, w.e.f. 1-1-2005.

(4) Where the terms and conditions of a licence have been settled by the Controller, the licensee may, at any time after he has worked the invention on a commercial scale for a period of not less than twelve months, make an application to the Controller for the revision of the terms and conditions on the ground that the terms and conditions settled have proved to be more onerous than originally expected and that in consequence thereof the licensee is unable to work the invention except at a loss:

PROVIDED that no such application shall be entertained a second time.

### **89. General purposes for granting compulsory licences**

The powers of the Controller upon an application made under section 84 shall be exercised with a view to securing the following general purposes, that is to say,—

- (a) that patented inventions are worked on a commercial scale in the territory of India without undue delay and to the fullest extent that is reasonably practicable;
- (b) that the interests of any person for the time being working or developing an invention in the territory of India under the protection of a patent are not unfairly prejudiced.

### **90. Terms and conditions of compulsory licences**

(1) In settling the terms and conditions of a licence under section 84, the Controller shall endeavour to secure—

- (i) that the royalty and other remuneration, if any, reserved to the patentee or other person beneficially entitled to the patent, is reasonable, having regard to the nature of the invention, the expenditure incurred by the patentee in making the invention or in developing it and obtaining a patent and keeping it in force and other relevant factors;
  - (ii) that the patented invention is worked to the fullest extent by the person to whom the licence is granted and with reasonable profit to him;
  - (iii) that the patented articles are made available to the public at reasonably affordable prices;
  - (iv) that the licence granted is a non-exclusive licence;
  - (v) that the right of the licensee is non-assignable;
  - (vi) that the licence is for the balance term of the patent unless a shorter term is consistent with public interest;
  - <sup>1</sup>[(vii) that the licence is granted with a predominant purpose of supply in the Indian market and that the licensee may also export the patented product, if need be in accordance with the provisions of sub-clause (iii) of clause (a) of sub-section (7) of section 84;
  - (viii) that in the case of semi-conductor technology, the licence granted is to work the invention for public non-commercial use;
  - (ix) that in case the licence is granted to remedy a practice determined after judicial or administrative process to be anti-competitive, the licensee shall be permitted to export the patented product, if need be.]
- (2) No licence granted by the Controller shall authorise the licensee to import the patented article or an article or substance made by a patented process from abroad where

---

<sup>1</sup> Substituted for the existing clause (vii) by the Patents (Amdt.) Act, 2005, w.e.f. 1-1-2005.

such importation would, but for such authorisation, constitute an infringement of the rights of the patentee.

(3) Notwithstanding anything contained in sub-section (2), the Central Government may, if in its opinion it is necessary so to do, in the public interest, direct the Controller at any time to authorise any licensee in respect of a patent to import the patented article or an article or substance made by a patented process from abroad (subject to such conditions as it considers necessary to impose relating among other matters to the royalty and other remuneration, if any, payable to the patentee, the quantum of import, the sale price of the imported article and the period of importation), and thereupon the Controller shall give effect to the directions.

### **91. Licensing of related patents**

(1) Notwithstanding anything contained in the other provisions of this Chapter, at any time after the sealing of a patent, any person who has the right to work any other patented invention either as patentee or as licensee thereof, exclusive or otherwise, may apply to the Controller for the grant of a licence of the first mentioned patent on the ground that he is prevented or hindered without such licence from working the other invention efficiently or to the best advantage possible.

(2) No order under sub-section (1) shall be made unless the Controller is satisfied—

- (i) that the applicant is able and willing to grant, or procure the grant to the patentee and his licensees if they so desire, of a licence in respect of the other invention on reasonable terms; and
- (ii) that the other invention has made a substantial contribution to the establishment or development of commercial or industrial activities in the territory of India.

(3) When the Controller is satisfied that the conditions mentioned in sub-section (1) have been established by the applicant, he may make an order on such terms as he thinks fit granting a licence under the first mentioned patent and a similar order under the other patent if so requested by the proprietor of the first mentioned patent or his licensee:

PROVIDED that the licence granted by the Controller shall be non-assignable except with the assignment of the respective patents.

(4) The provisions of sections 87, 88, 89 and 90 shall apply to licences granted under this section as they apply to licences granted under section 84.

### **92. Special provision for compulsory licences on notifications by Central Government**

(1) If the Central Government is satisfied, in respect of any patent in force in circumstances of national emergency or in circumstances of extreme urgency or in case of public non-commercial use, that it is necessary that compulsory licenses should be granted at any time after the sealing thereof to work the invention, it may make a declaration to that effect, by notification in the Official Gazette, and thereupon the following provisions shall have effect, that is to say—

- (i) the Controller shall, on application made at any time after the notification by any person interested, grant to the applicant a licence under the patent on such terms and conditions as he thinks fit;
- (ii) in settling the terms and conditions of a licence granted under this section, the Controller shall endeavour to secure that the articles manufactured under the patent shall be available to the public at the lowest prices

consistent with the patentees deriving a reasonable advantage from their patent rights.

(2) The provisions of sees. 83,87,88,89 and 90 shall apply in relation to the grant of licences under this section as they apply in relation to the grant of licences under sec. 84.

(3) Notwithstanding anything contained in sub-section (2), where the Controller is satisfied on consideration of the application referred to in clause (i) of sub-section (1) that it is necessary in—

- (i) a circumstance of national emergency; or
- (ii) a circumstance of extreme urgency; or
- (iii) a case of public non-commercial use,

which may arise or is required, as the case may be, including public health crises, relating to Acquired Immuno Deficiency Syndrome, human immunodeficiencyvirus, tuberculosis, malaria or other epidemics, he shall not apply any procedure specified in section 87 in relation to that application for grant of licence under this section:

PROVIDED that the Controller shall, as soon as may be practicable, inform the patentee of the patent relating to the application for such non-application of section 87.

**[92A. Compulsory licence for export of patented pharmaceutical products in certain exceptional circumstances**

(1) Compulsory licence shall be available for manufacture and export of patented pharmaceutical product to any country having insufficient or no manufacturing capacity in the pharmaceutical sector for the concerned product to address public health problems, provided compulsory licence has been granted by such country or such country has, by notification or otherwise, allowed importation of the patented pharmaceutical products from India.

(2) The Controller shall, on receipt of an application in the prescribed manner, grant a compulsory licence solely for manufacture and export of the concerned pharmaceutical product to such country under such terms and conditions as may be specified and published by him.

(3) The provisions of sub-sections (1) and (2) shall be without prejudice to the extent to which pharmaceutical products produced under a compulsory licence can be exported under any other provision of this Act.

*Explanation:* For the purposes of this section, 'pharmaceutical products' means any patented product, or product manufactured through a patented process, of the pharmaceutical sector needed to address public health problems and shall be inclusive of ingredients necessary for their manufacture and diagnostic kits required for their use.]

**93. Order for licence to operate as a deed between parties concerned**

Any order for the grant of a licence under this Chapter shall operate as if it were a deed granting a licence executed by the patentee and all other necessary parties embodying the terms and conditions, if any, settled by the Controller.

**94. Termination of compulsory licence**

(1) On an application made by the patentee or any other person deriving title or interest in the patent, a compulsory licence granted under section 84 may be terminated by the Controller, if and when the circumstances that gave rise to the grant thereof no longer exist and such circumstances are unlikely to recur:

PROVIDED that the holder of the compulsory licence shall have the right to object to such termination.

(2) While considering an application under sub-section (1), the Controller shall take into account that the interest of the person who had previously been granted the licence is not unduly prejudiced.]

## CHAPTER XVII

### USE OF INVENTIONS FOR PURPOSES OF GOVERNMENT AND ACQUISITION OF INVENTIONS BY CENTRAL GOVERNMENT

#### 99. Meaning of use of invention for purposes of government

(1) For the purposes of this chapter, an invention is said to be used for the purposes of government if it is made, used, exercised or vended for the purposes of the Central Government, a State Government or a government undertaking.

<sup>1</sup>(2) xxx]

(3) Nothing contained in this Chapter shall apply in respect of any such importation making or using of any machine, apparatus, or other article or of any such using of any process or of any such importation, using or distribution of any medicine or drug, as may be made by virtue of one or more of the conditions specified in section 47.

#### 100. Power of Central Government to use inventions for purposes of government

(1) Notwithstanding anything contained in this Act, at any time after an application for a patent has been filed at the patent office or a patent has been granted, the Central Government and any person authorised in writing by it may use the invention for the purposes of government in accordance with the provisions of this chapter.

(2) Where an invention has, before the priority date of the relevant claim of the complete specification, been duly recorded in a document, or tested or tried, by or on behalf of the government or a government undertaking, otherwise than in consequence of the communication of the invention directly or indirectly, by the patentee or by a person from whom he derives title, any use of the invention by the Central Government or any person authorised in writing by it for the purposes of government may be made free of any royalty or other remuneration to the patentee.

(3) If and so far as the invention has not been so recorded or tried or tested as aforesaid, any use of the invention made by the Central Government of any person authorised by it under sub-section (1), at any time after <sup>2</sup>[grant of the patent] or in consequence of any such communication as aforesaid, shall be made upon terms as may be agreed upon either before or after the use, between the Central Government or any person authorised under sub-section (1) and the patentee, or, as may in default of agreement be determined by the High Court on a reference under section 103:

<sup>3</sup>[PROVIDED that in case of any such use of any patent, the patentee shall be paid not more than adequate remuneration in the circumstances of each case, taking into account the economic value of the use of the patent.]

(4) The authorisation by the Central Government in respect of an invention may be given under this section, either before or after the patent is granted and either before or after the acts in respect of which such authorisation is given or done, and may be

1 Omitted by Patents (Amdt.) Act, 2002, w.e.f. 20-5-2003 vide S.O. 561(E), dt. 20-5-2003.

3 Substituted by Patents (Amdt.) Act, 2002, w.e.f. 20-5-2003 vide S.O. 561(E), dt. 20-5-2003.

given to any person, whether or not he is authorised directly or indirectly by the applicant or the patentee to make, use, exercise or vend the invention or import the machine, apparatus or other article or medicine or drug covered by such patent.

(5) Where an invention has been used by or with the authority of the Central Government for the purposes of government under this section, then <sup>1</sup>[except in case of national emergency or other circumstances of extreme urgency or for non-commercial use], the government shall notify the patentee as soon as practicable of the fact and furnish him with such information as to the extent of the use of the invention as he may, from time to time, reasonably require; and where the invention has been for the purposes of a government undertaking, the Central Government may call for such information as may be necessary for this purpose from such undertaking.

(6) The right to make, use, exercise and vend an invention for the purposes of government under sub-section (1) shall include the <sup>2</sup>[right to sell on non-commercial basis, the goods] which have been made in exercise of that right, and a purchaser of goods so sold, and a person claiming through him, shall have the power to deal with the goods as if the Central Government or the person authorised under sub-section (1) were the patentee of the invention.

(7) Where in respect of a patent which has been the subject of an authorisation under this section, there is an exclusive licensee as is referred to in sub-section (3) of section (3) of section 101, or where such patent has been assigned to the patentee in consideration of royalties or other benefits determined by reference to the use of the invention (including payments by way of minimum royalty), the notice directed to be given under sub-section (5) shall also be given to such exclusive licensee or assignor, as the case may be, and the reference to the patentee in sub-section (3) shall be deemed to include a reference to such assignor or exclusive licensee.

### **101. Right of third parties in respect of use of invention for purposes of government**

(1) In relation to any use of a patented invention, or an invention in respect of which an application for a patent is pending, made for the purposes of government

- (a) by the Central Government or any person authorised by the Central Government under section 100; or
- (b) by the patentee or applicant for the patent to the order made by the Central Government,

the provisions of any licence, assignment or agreement granted or made, <sup>3</sup>[xxx] between the patentee or applicant for the patent (or any person who derives title from him or from whom he derives title) and any person other than the Central Government shall be of no effect so far as those provisions—

- (i) restrict or regulate the use for the purposes of government of the invention, or of any model, document or information relating thereto, or
- (ii) provide for the making of payments in respect of any use of the invention or of the model, document or information relating thereto for the purposes of government <sup>4</sup>[x x x],

and the reproduction or publication of any model or document in connection with the said use for the purposes of government shall not be deemed to be an infringement of any copyright subsisting in the model or document.

(2) Where the patent, or the right to apply for or obtain the patent, has been assigned to the patentee in consideration of royalties or other benefits determined by reference to the use of the invention <sup>1</sup>[x x x] then, in relation to any use of the invention made for the purposes of government by the patentee to the order of the Central Government, sub-section (3) of section 100 shall have effect as if that use were made by virtue of an authority given under that section, and any use of the invention for the purposes of government by virtue of sub-section (3) of that section shall have effect as if the reference to the patentee included a reference to the assignor of the patent, and any sum payable by virtue of that sub-section shall be divided between the patentee and the assignor in such proportion as may be agreed upon between them or as may in default of agreement be determined by the High Court on a reference under section 103.

(3) Where by virtue of sub-section (3) of section 100, payments are required to be made by the Central Government or persons authorised under sub-section (1) of that section in respect of the use of an invention for the purposes of government, and where in respect of such patent there is an exclusive licensee authorised under his licence to use the invention for the purposes of government, such sum shall be shared by the patentee and such licensee in such proportions, if any, as may be agreed upon between them or as may in default of agreement be determined by the High Court on a reference under section 103 to be just, having regard to any expenditure incurred by the licensee—

(a) in developing the said invention; or

(b) in making payments to the patentees other than royalties or other benefits determined by reference to the use of the invention <sup>1</sup>[x x x] in consideration of the licence.

#### **102. Acquisition of inventions and patents by the Central Government**

(1) The Central Government may, if satisfied that it is necessary that an invention which is the subject of an application for a patent or a patent should be acquired from the applicant or the patentee for a public purpose, publish a notification to that effect in the Official Gazette, and thereupon the invention or patent and all rights in respect of the invention or patent shall, by force of this section, stand transferred to and be vested in the Central Government.

(2) Notice of the acquisition shall be given to the applicant, and, where a patent has been granted, to the patentee and other persons, if any, appearing in the register as having an interest in the patent.

(3) The Central Government shall pay to the applicant, or as the case may be, the patentee and other persons appearing on the register as having an interest in the patent such other compensation as may be agreed upon between the Central Government and the applicant or the patentee and other persons; or, as may, in default of agreement, be determined by the High Court on a reference under section 103 to be just having regard to the expenditure incurred in connection with the invention and, in the case of a patent, the term thereof, the period during which and the manner in which it has already been

worked (including the profits made during such period by the patentee or by his licensee whether exclusive or otherwise) and other relevant factors.

**103. Reference to High Court of disputes as to use for purposes of government**

(1) Any dispute as to the exercise by the Central Government or a person authorised by it of the powers conferred by section 100, or as to terms for the use of an invention for the purposes of government thereunder or as to the right of any person to receive any part of a payment made in pursuance of sub-section (3) of that section or as to the amount of compensation payable for the acquisition of an invention or a patent under section 102, may be referred to the High Court by either party to the dispute in such manner as may be prescribed by the rules of the High Court.

(2) In any proceedings under this section to which the Central Government is a party, the Central Government may—

- (a) if the patentee is a party to the proceedings, petition by way of counter-claim for revocation of the patent on any ground upon which a patent may be revoked under section 64; and
- (b) whether a patentee is or is not a party to the proceedings, put in issue the validity of the patent without petitioning for its revocation.

(3) If in such proceedings as aforesaid any question arises whether an invention has been recorded, tested or tried as is mentioned in section 100, and the disclosure of any document regarding the invention, or of any evidence of the test or trial thereof, would, in the opinion of the Central Government, be prejudicial to the public interest, the disclosure may be made confidentially to the advocate of the other party or to an independent expert mutually agreed upon.

(4) In determining under this section any dispute between the Central Government and any person as to terms for the use of an invention for the purposes of government, the High Court shall have regard to any benefit or compensation which that person or any person from whom he derives title, may have received, or may be entitled to receive, directly or indirectly in respect of the use of the invention in question for the purposes of government.

(5) In any proceedings under this section, the High Court may at any time order the whole proceedings or any question or issue of fact arising therein to be referred to an official referee, commissioner or an arbitrator on such terms as the High Court may direct, and references to the High Court in the foregoing provisions of this section shall be construed accordingly.

(6) Where the invention claimed in a patent was made by a person who at time it was made was in the service of the Central Government or of a State Government or was an employee of a government undertaking and the subject-matter of the invention is certified by the relevant government or the principal officer of the government undertaking to be connected with the work done in the course of the normal duties of the government servant or employee of the government undertaking, then, notwithstanding anything contained in this section, any dispute of the nature referred to in sub-section (1) relating to the invention shall be disposed of by the Central Government conformably to the provisions of this section so far as may be applicable, but before doing so the Central Government shall give an opportunity to the patentee and such other parties as it considers have an interest in the matter to be heard.

**CHAPTER XVIII****SUITS CONCERNING INFRINGEMENT OF PATENTS****104. Jurisdiction**

**No suit for a declaration under section 105 or for any relief under section 106 or for infringement of a patent shall be instituted in any court inferior to a district court having jurisdiction to try the suit:**

**PROVIDED that where a counter-claim for revocation of the patent is made by the defendant, the suit, along with the counter-claim, shall be transferred to the High Court for decision.**

**COMMENTS**

There is a distinction maintained as between the defence raised to a suit for infringement of a patent (vide s. 107) on the one hand and the revocation sought of a patent on the other (vide s. 64). The grounds may be the same, but still there is no inconsistency on account of the suit being defended as liable to dismissal in a particular case and a case where the defendant seeks also that the patent asserted by the plaintiff be revoked. It is only when there is a counter claim seeking revocation of the patent that the jurisdiction of the District Court is ousted. The proviso to s. 104 being in the nature of an exception to the general rule, it has to be strictly construed. There is no express claim on the part of the defendant for revocation of the patent whereof infringement is alleged by the plaintiff. That the defendant pleads that the patent set up by the plaintiff is invalid amounts only to the defendant raising a ground for the relief sought by the plaintiff being declined; it does not follow necessarily that the defendant also seeks by way of a counterclaim that the patent be revoked. The defendant has not asserted in the pleadings anywhere that they are the patentee or that they are entitled to be registered as such. The grounds raised are cumulatively and also individually by way of defence to the plaintiff's action.—*Fabcon Corporation v. Industrial Engineering Corporation AIR 1987 All 338*

**'[104A. Burden of proof in case of suits concerning infringement**

(1) In any suit for infringement of a patent, where the subject matter of patent is a process for obtaining a product, the court may direct the defendant to prove that the process used by him to obtain the product, identical to the product of the patented process, is different from the patented process if,—

- (a) the subject matter of the patent is a process for obtaining a new product; or
- (b) there is a substantial likelihood that the identical product is made by the process, and the patentee or a person deriving title or interest in the patent from him, has been unable through reasonable efforts to determine the process actually used:

PROVIDED that the patentee or a person deriving title or interest in the patent from him, first proves that the product is identical to the product directly obtained by the patented process.

(2) In considering whether a party has discharged the burden imposed upon him by subsection (1), the court shall not require him to disclose any manufacturing or commercial secrets, if it appears to the court that it would be unreasonable to do so.]

**105. Power of court to make declaration as to non-infringement**

(1) Notwithstanding anything contained in section 34 of the Specific Relief Act,

1 Inserted by Patents (Amdt.) Act, 2002, w.e.f. 20-5-2003 vide S.O.561(E), dt. 20-5-2003.

1963, (47 of 1963), any person may institute a suit for a declaration that the use by him of any process, or the making, use or sale of any article by him does not, or would not, constitute an infringement of a claim of a patent against the patentee or the holder of an exclusive licence under the patent, notwithstanding that no assertion to the contrary has been made by the patentee or the licensee, if it is shown—

- (a) that the plaintiff has applied in writing to the patentee or exclusive licensee for a written acknowledgment to the effect of the declaration claimed and has furnished him with full particulars in writing of the process or article in question; and
- (b) that the patentee or licensee has refused or neglected to give such an acknowledgment.

(2) The costs of all parties in a suit for a declaration brought by virtue of this section shall, unless for special reasons the court thinks fit to order otherwise, be paid by the plaintiff.

(3) The validity of a claim of the specification of a patent shall not be called in question in a suit for declaration brought by virtue of this section, and accordingly the making or refusal of such a declaration in the case of a patent shall not be deemed to imply that the patent is valid or invalid.

(4) A suit for a declaration may be brought by virtue of this section at any time <sup>1</sup>[after the publication of grant of a patent], and references in this section to the patentee shall be construed accordingly.

#### **106. Power of court to grant relief in cases of groundless threats of infringement proceedings**

(1) Where any person (whether entitled to or interested in a patent or an application for a patent or not) threatens any other person by circulars or advertisements or by communications, oral or in writing addressed to that or any other person, with proceedings for infringement of a patent, any person aggrieved thereby may bring a suit against him praying for the following reliefs, that is to say—

- (a) a declaration to the effect that the threats are unjustifiable;
- (b) an injunction against the continuance of the threats; and
- (c) such damages, if any, as he has sustained thereby.

(2) Unless in such suit the defendant proves that the acts in respect of which the proceedings were threatened constitute or, if done, would constitute, an infringement of a patent or of rights arising from the publication of a complete specification in respect of a claim of the specification not shown by the plaintiff to be invalid, the court may grant to the plaintiff all or any of the reliefs prayed for.

*Explanation :* A mere notification of the existence of a patent does not constitute a threat of proceeding within the meaning of this section.

#### **107. Defences, etc. in suits for infringement**

(1) In any suit for infringement of a patent, every ground on which it may be revoked under section 64 shall be available as a ground for-defence.

(2) In any suit for infringement of a patent by the making, using or importation of any machine, apparatus or other article or by the using of any process or by the

**109. Right of exclusive licensee to take proceedings against infringement**

(1) The holder of an exclusive licence shall have the like right as the patentee to institute a suit in respect of any infringement of the patent committed after the date of the licence, and in awarding damages or an account of profits or granting any other relief in any such suit the court shall take into consideration any loss suffered or likely to be suffered by the exclusive licensee as such or, as the case may be, the profits earned by means of the infringement so far as it constitutes an infringement of the rights of the exclusive licensee as such.

(2) In any suit for infringement of a patent by the holder of an exclusive licence under sub-section (1), the patentee shall, unless he has joined as a plaintiff in the suit, be added as a defendant, but a patentee so added as defendant shall not be liable for any costs unless he enters an appearance and takes part in the proceedings.

**110. Right of licensee under section 84 to take proceedings against infringement**

Any person to whom a licence has been granted under section 84 shall be entitled to call upon the patentee to take proceedings to prevent any infringement of the patent, and, if the patentee refuses or neglects to do so within two months after being so called upon, the licensee may institute proceedings for the infringement in his own name as though he were the patentee, making the patentee a defendant; but a patentee so added as defendant shall not be liable for any costs unless he enters an appearance and takes part in the proceedings.

**111. Restriction on power of court to grant damages or an account of profits for infringement**

(1) In a suit for infringement of a patent, damages or an account of profits shall not be granted against the defendant who proves that at the date of the infringement he was not aware and had no reasonable grounds for believing that the patent existed.

*Explanation :* A person shall not be deemed to have been aware or to have had reasonable grounds for believing that a patent exists by reason only of the application to an article of the word "patent", "patented" or any word or words expressing or implying that a patent has been obtained for the article, unless the number of the patent accompanies the word or words in question.

(2) In any suit for infringement of a patent the court may, if it thinks fit, refuse to grant any damages or an account of profits in respect of any infringement committed after a failure to pay any renewal fee within the prescribed period and before any extension of that period.

(3) Where an amendment of a specification by way of disclaimer, correction or explanation has been allowed under this Act after the publication of the specification, no damages or account of profits shall be granted in any proceeding in respect of the use of the invention before the date of the decision allowing the amendment, unless the court is satisfied that the specification as originally published was framed in good faith and with reasonable skill and knowledge.

(4) Nothing in this section shall affect the power of the court to grant an injunction in any suit for infringement of a patent.

**113. Certificate of validity of specification and costs of subsequent suits for infringement thereof**

<sup>2</sup>[(1) If in any proceedings before the Appellate Board or a High Court for the revocation of a patent under section 64 and section 104, as the case may be, the validity of any claim of a specification is contested and that claim is found by the Appellate Board or the High Court to be valid, the Appellate Board or the High Court may certify that the validity of that claim was contested in those proceedings and was upheld.]

(2) Where any such certificate has been granted, then, if any subsequent suit before a court for infringement of that claim of the patent or in any subsequent proceeding for revocation of the patent in so far as it relates to that claim, the patentee or other person relying on the validity of the claim obtains a final order or judgment in his favour, he shall be entitled to an order for the payment of his full costs, charges and expenses of and incidental to any such suit or proceeding properly incurred so far as they concern the claim in respect of which the certificate was granted, unless the court trying the suit or proceeding otherwise directs:

PROVIDED that the costs as specified in this sub-section shall not be ordered when the party disputing the validity of the claim satisfies the court that he was not aware of the grant of the certificate when he raised the dispute and withdrew forthwith such defence when he became aware of such a certificate.

<sup>2</sup>[(3) Nothing contained in this section shall be construed as authorising the courts or the Appellate Board hearing appeals from decrees or orders in suits for infringement or petitions for revocation, as the case may be, to pass orders for costs on the scale referred to therein.]

**114. Relief for infringement of partially valid specification**

(1) If in proceedings for infringement of a patent it is found that any claim of the specification, being a claim in respect of which infringement is alleged, is valid but that any other claim is invalid, the court may grant relief in respect of any valid claim which is infringed: PROVIDED that the court shall not grant relief except by way of injunction save in the circumstances mentioned in sub-section (2).

(2) Where the plaintiff proves that the invalid claim was framed in good faith and with reasonable skill and knowledge, the court shall grant relief in respect of any valid claim which is infringed subject to the discretion of the court as to costs and as to the date from which damages or an account of profits should be reckoned, and in exercising such discretion the court may take into consideration the conduct of the parties in inserting such invalid claim in the specification or permitting them to remain there.

**115. Scientific advisers**

(1) In any suit for infringement or in any proceeding before a court under this Act, the court may at any time, and whether or not an application has been made by any party for that purpose appoint an independent scientific adviser to assist the court or to inquire and report upon any such question of fact or of opinion (not involving a question of interpretation of law) as it may formulate for the purpose.

1 Omitted by Patents (Amdt.) Act, 2002, w.e.f. 20-5-2003 vide S.O. 561(E), dt. 20-5-2003.

(2) The remuneration of the scientific adviser shall be fixed by the court and shall include the costs of making a report and a proper daily fee for any day on which the scientific adviser may be required to attend before the court, and such remuneration shall be defrayed out of moneys provided by Parliament by law for the purpose.
